# Dear Sir or Madam:

We are conducting a compliance check of your governmental bond as part of our ongoing efforts to increase voluntary compliance by governmental bond issuers. We are asking you to answer questions concerning your post-issuance bond compliance procedures.

### **General Information**

Governmental bonds are tax-exempt bonds issued by a State or local government which are not private activity bonds as described in section 141 of the Internal Revenue Code.

The tax-exempt status of governmental bonds remains throughout the life of the bonds if all applicable federal tax laws are satisfied while the bonds are outstanding. Various requirements apply under the Internal Revenue Code and Income Tax Regulations including information filing and other requirements related to issuance, the proper and timely use of bond-financed property, and arbitrage yield restriction and rebate requirements.

To comply with these and any other applicable federal tax requirements, governmental bond issuers must ensure that the rules are met at the time the bonds are issued and throughout the term of the bonds. Generally, this includes the continued maintenance of records sufficient to establish compliance with all applicable federal tax requirements until three years after the final maturity of the bonds. Also, continued maintenance of records related to periods before the bonds are issued and after the bonds mature is oftentimes necessary, particularly in instances involving reimbursements of prior expenditures or refundings of prior bond issues.
